

CORPORATE OVERVIEW

Over the last 60 + years, Navalís Construction Services, Inc. has mastered the art of constructing innovative, cost-effective buildings and interior spaces that have exceeded expectations. From constructing “green” power plants and state-of-the-art medical laboratories to innovating school environments and modernizing apartment complexes and office buildings, our focus is on earning our clients’ trust and confidence to help them take their project vision and make it a reality. Our team is passionate about creating structures that emit a sense of confidence, strength, and pride. We approach each project with the ideal outcome in mind from start to finish. We know that every detail no matter how small is critical to the overall success of a project—and ultimately the relationship with the client. We don’t just construct buildings, we create an experience.
